Stockholm, 2010.05.26

Seedcap won the tender for Energy Consultant 2009

In tough competition with 54 companies Seedcap won the tender "Energy Consultant 2009", issued by the Swedish Energy Agency.

Seedcap will be delivering services within business development, marketing and due diligence to startups in the cleantech field.

The contract is for two years.

"It is fantastic that we won in all three areas where we bid and in such strong competition from companies such as Sensa Corporate Advisors, Triathlon och PwC. Most fun of all is that Seedcap won on quality and not price."

Andy Cars, CEO Seedcap
